1. At Gorna banya there is a school for technical instructors for tractors and agricultural machinery. There are seventy pupils, all former partisans or "homsomols". The instructors are Russian. The school is in the building of the former artillery school.

2. At Breznik there is a "Model School" for two hundred instructors for labor units. It is a military institution and is directed by Lieutenant-Colonel Atanasov. There are sections for bridge building, road building and the erection of buildings. The school is housed in the barracks of the cavalry regiment.
